Tiny Tot Junior Program

This program is designed for your little junior to have fun and get them interested in playing golf. We use a system called Snag golf for the 2 to 4 year olds where your little ones learn how to play with plastic clubs and tennis balls. This makes it more fun for them because it is easier to hit the ball and have more success. The 5 and 6 year olds will be split up into another group where they will be using regular golf clubs and balls. Wendy Sass will be teaching fitness to help the juniors build agility and strength.

The cost of this program is \$100
